*A people group is considered unengaged when there is no church planting strategy, consistent with Evangelical faith and practice, being carried out among the people. A people group is considered unreached when less than 2% of the population is Evangelical Christians. The unengaged on this list represent a group that has been designated as unengaged in *at least one* country in the world. This list is representative, and not exhaustive. People group research is still being collected in the United States.
